Attention Grade 3-8 Teachers,

This fall and winter, let us teach your class a fun new sport while fulfilling your aquatics curriculum component. You need to arrange pool time and transportation, and we'll take care of the in-pool instruction and equipment. *As a teacher, you may participate in the water or on the deck.*

What is water polo?

- **Fun** : It is a fun team sport played in the Olympics
- **Inclusive** : A great way to integrate everyone in your class. Unlike many traditional sports, few students will have a background in the sport, so the entire class will automatically be close in skill and experience level
- **Safe** : It is low impact due to the water, so there are very few injuries
- **Inexpensive** : Athletes just need a swimsuit and a towel, we provide the rest
- **Educational** : Swimming and treading water are survival skills and basic movements essential to physical literacy and development

How to book:

- **Choose a few dates** then email (info@waterpolosaskatoon.com) or phone (242-0972) us with your grade level, school, and name to ensure we can provide coaching for those dates
- **Book the pool** : Call the pool to book whichever date(s) you and the coach have agreed on (min. one hour is recommended. You may wish to do two sessions of an hour each). We can do sessions at most indoor pools in Saskatoon and area.
- **Confirm dates** : Email us your dates/times and number of expected participants
- **Book Transportation** : If required, you may wish to book a bus. When booking, we recommend you give the students up to 15 minutes to change after their pool session.

Each one-hour session costs \$30.
We will confirm your booking within 24 hours.

Please contact us with any questions.
We look forward to seeing you in the pool!
